

THE EVERHOT
COOKER HOOD
BY WESTIN

THE EVERHOT COOKER HOOD BY WESTIN

A professional range extractor to complete your cooker

Introducing the Everhot cooker hood by Westin. Individually designed for each and every Everhot range and hand built in Britain to perfectly match your existing cooker, or the one you have in mind.

The Everhot cooker hood by Westin is a precision-engineered extractor made from high grade stainless steel, featuring professional dishwasher safe filters and a large, vaulted fume catchment area. Its classic good looks are combined with modern efficiency to result in a stunning, powerful extraction hood that will stay with you and your kitchen for years to come.

COMPLEMENT YOUR KITCHEN

Complete your cooker with a hood that has been expertly matched to every single colour and size of Everhot cooker. The custom paint finish is combined with a brushed stainless-steel edge, reflecting Everhot's

characteristic style. The hood's sleek, polished finish will complement your kitchen design and draw further attention to your Everhot cooker as it takes pride of place in your home.

HOOD HIGHLIGHTS

POWER THAT'S EASY TO ADJUST

Each cooker hood features three power levels, alongside an intensive setting, to ensure that the extraction level complements any cooking style. Owners of the Everhot 120 and 150 series models also have the option of dual motors to increase the power level further and spread extraction evenly along the width of the cooktop.

AT THE TOUCH OF A BUTTON

The intuitive LCD touch controls provide quick and easy control over the power and lighting settings. The dimmable, dynamic LED lighting settings can be adjusted from cool to warm colours to fit in with your kitchen lighting scheme, or your cooking mood.

EFFICIENT DESIGN DETAILING

The distinctively angular style of the hood is purposefully designed to boost extraction performance by increasing the catchment area and smoothing the air flow inside. The baffle filters can be easily lifted out and popped in the dishwasher time and time again to stay clean and fresh.

THE PERFECT PARTNERSHIP

Everhot is proud to work with cooker hood specialists, Westin, combining over 140 years of collective British manufacturing and craftsmanship to produce the Everhot cooker hood by Westin. Westin has been designing and

building cooker hoods in Yorkshire since 1921. Each of their hoods is hand finished, using traditional methods. An ethos echoed by Everhot's expertise here in the Cotswolds.

TAILORED DESIGN OPTIONS

For Everhot owners looking for something unique and more customised to their individual kitchen design, optional extras can be incorporated into the Everhot cooker hood by Westin. Including recirculation filters,

a telescopic chimney in a matching colour finish, bespoke power levels, dimensions, finish, controls and lighting. Giving you complete flexibility to blend in with your existing interiors.

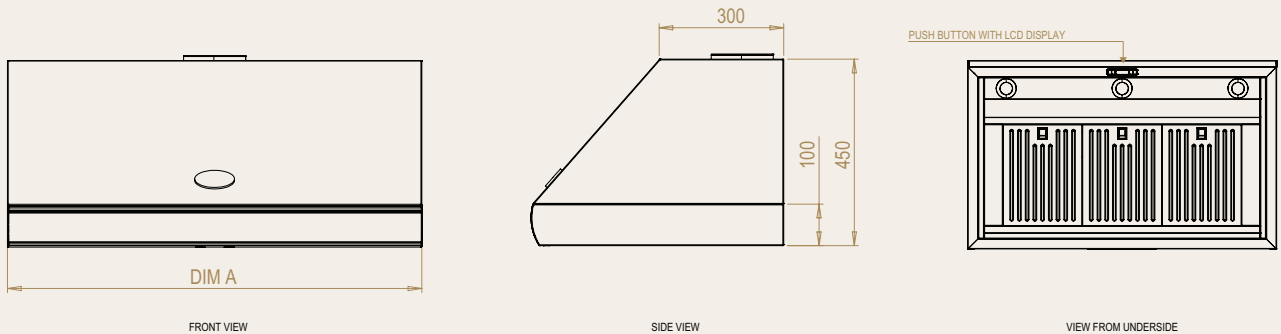

COLOURS

Available in a range of colour options to match your existing Everhot cooker.

DIMENSIONS

Designed to the exact dimensions of each Everhot range, to fit perfectly above your cooker.
